## PROFESSIONAL SUMMARY

---

Frontend Developer and Full-Stack (MERN) Developer with 5+ years of experience designing and building scalable, high-performance web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Skilled in REST API design and integration, server-side rendering (SSR), component architecture, and responsive UI development with Redux, Tailwind CSS, Bootstrap, and Material UI. Delivered production systems in healthcare, logistics, and fintech, improving performance, maintainability, and team velocity while mentoring junior engineers. Strong Agile collaborator across cross-functional product, design, and backend teams.

## TECHNICAL SKILLS

---

- **Frontend:** React.js, Next.js (SSR/SSG, App Router), React Native, Redux, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, TanStack Query, Material UI
- **Backend:** Node.js, Express.js, REST API
- **Testing:** Jest, React Testing Library (RTL), Unit Testing, Component-Level Testing
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, GitLab, Docker, Kubernetes, Jira, Figma, CI/CD
- **Practices:** Agile/Scrum, Atomic Design, Unit Testing, Code Review, Performance Optimization, Cross-Browser Compatibility, Mentoring

## PROFESSIONAL EXPERIENCE

---

### Senior Software Engineer

Oct 2025 – Mar 2026

*AI-Thinkers - Telangana, India*

**E360+ Patient & Provider Portal** | **Tech Stack:** React.js, Next.js, Redux Toolkit, SWR, Material UI, React-Hook-Form, Axios

- Engineered a scalable healthcare portal used by 1,000+ healthcare providers, managing data for millions of patients nationwide, as part of a cross-functional engineering team of 30+.
- Architected a reusable, responsive component library using React, Next.js, and Material UI under Atomic Design principles, streamlining new-feature development across the product.
- Led migration from Next.js Pages Router to App Router, leveraging Server Components and optimized data fetching to improve initial page load speed and reduce client-side JavaScript, backed by Jest and React Testing Library (RTL) component-level test coverage to safeguard existing functionality.

### Frontend Engineer

Jun 2023 – Aug 2025

*Kredmint Technology Pvt Ltd - Noida, Uttar Pradesh, India*

**Order Management System** | **Tech Stack:** React.js, Next.js, Tailwind CSS, React-Hook-Form, TanStack, React Google Maps, Firebase

- Built a scalable order management web application processing 1,000,000+ orders monthly across 20,000+ retailers and 100+ warehouses, with full order lifecycle tracking from central warehouse to retailer level.
- Shipped real-time features including dynamic mobile layout control, coupon creation, and Firebase push notifications to strengthen user engagement and streamline operations.
- Led feature development and mentored junior developers, resolving critical performance issues and shipping reliable releases across staging and production environments.

### Software Developer

Sep 2022 – Mar 2023

*Eron Micro - Delhi, India*

**Admin Panel** | **Tech Stack:** React.js, Redux, Redux Thunk, Material UI, React-Hook-Form

- Built an attendance management module used by 70+ employees, automating attendance calculations, leave tracking, and working-hour records through a structured web interface.
- Reduced manual errors and eliminated dependency on Excel-based calculations by implementing validations that prevented duplicate and incorrect attendance entries, improving overall data accuracy.
- Partnered with cross-functional teams to maintain code quality and ensure seamless integration with backend services, strengthening overall system reliability.

#### **Software Developer**

**Nov 2019 – Jun 2022**

**Softintra Technology Pvt Ltd** - Gorakhpur, Uttar Pradesh, India

**Online Appointment Booking | Tech Stack:** React.js, HTML, CSS, Bootstrap, Redux, Redux Thunk

- Developed a web application enabling customers and companies to book repair appointments for computers/laptops, with scheduling and assignment to available technicians.
- Built admin panel features for managing customers, companies, and service appointments to streamline operations.
- Integrated APIs, implemented form validations, and created reusable React components with responsive layouts.
- Conducted unit testing to ensure functionality and maintain application reliability.

#### **EDUCATION**

---

##### **B.Tech**

**Jul 2016 – Jun 2019**

*Madan Mohan Malaviya University of Technology — Gorakhpur, Uttar Pradesh, India*

##### **Diploma**

**Jun 2012 – Jul 2015**

*Board of Technical Education — Lucknow, Uttar Pradesh, India*

#### **LANGUAGES**

---

English, Hindi
